

## Medilyte for Laptops and Chromebooks

**Design and mobility:** The Medilyte is designed with a sleek, user-friendly structure, featuring smooth-rolling casters for superior mobility. Its compact dimensions ensure it can navigate through tight corridors and spaces commonly found in healthcare facilities.

**Laptop compatibility:** Securely accommodating a variety of laptops and Chromebooks up to 17", the Medilyte provides a stable and ergonomic workspace, essential for healthcare professionals who rely on technology for patient care and data management.

**Ergonomic adjustability:** With an adjustable-height mechanism, the Medilyte caters to both standing and sitting work positions. This ergonomic consideration is vital for healthcare staff, often working long hours and requiring adaptable workstations.

**Easy to clean:** The Medilyte was designed with cleanliness in mind, to meet with infectious control stipulations, featuring seamless and non-porous materials that allow for effortless cleaning and sanitisation.
